Total Savings \$257.60 per month by switching to Tango-Endo

**For year (20 rct per mo.) \$5,280 with a single file technique
vs. \$2,188.80 with Tango-Endo**

Total Savings of \$3,091.20 per year by switching to Tango-Endo

Tango-Endo Advantages over other Single File Systems

- Tango-Endo Instruments are Virtually Unbreakable
- Instruments are tough and reusable
- Instruments work the diameters of canal walls without removing access tooth structure

Usage:

- Tango-Endo Instruments can be used up to three times before discarding them.
- Other Instruments can only be used once and are prone to breakage, as they are not truly reciprocating.

Reciprocating Motion:

- Tango-Endo Instruments are truly reciprocating, therefore helping to prevent binding and separation.
- Other single file Instruments are not truly reciprocating and are likely to bind.
